Creative and driven Full Stack Web Developer with a background in freelance Audio Engineering . Adept at producing professional final products using dedication, attention to detail and a willingness to learn to each project.

PROFESSIONAL EXPERIENCE

Associate Application Developer, Charter Communications
Jul 2021 – Present | Charlotte, NC

- Work with website managers and brand leadership to improve the performance of the websites and add new features as necessary.
- Assisted the transition from the legacy NodeJS REST API to a GraphQL client handling 100,000 requests a minute.
- Create and modify API endpoints to efficiently and reliably deliver data to the UI.
- Work with a microservices team to layout a streamlined flow of data.
- Write API unit tests with complete code coverage.
- Create and update component based front end web pages and content using AngularJS and Less.
- Provide technical and programming support for integration between the websites and third party providers.
- Provide technical assistance and recommendations on process improvement.
- Produce and maintain written documentation of system information.
- Utilize Docker and Jenkins for automated and containerized deployments in code reviews.

Website Designer, Townsquare Interactive
Apr 2021 – Jul 2021 | Charlotte, NC

- Design 2-3 websites a day for client businesses looking to expand their online presence and reach using a proprietary CMS.
- Create graphics and logos for clients to use for ads and promotional materials using the Adobe Creative Suite.
- Effectively communicate with client-facing teams to deliver websites that meet custom client requests and specifications.

Web Designer/Administrator, TravelSalesGroup
Feb 2020 – Apr 2021 | Charlotte, NC

- Maintain website content and design using the MERN stack.
- Communicate with business owner on design requests and specifications.
- Increased online sales 120% with SEO optimizations and site redesign.

Freelance Audio/Visual Technician/Musician
Feb 2015 – Apr 2020 | Charlotte, NC

- Contracted by bands, venues, and organizations to perform audio and visual tech support.
- Prepare musically at a professional level for events and performances.

Music and Media Production Director, 801 South/Matthews UMC
Feb 2015 – Jul 2018 | Matthews, NC

- Led 12 volunteers charged with producing and performing musical portion of church service.
- Responsible for creation of audio/video presentation designed to complement service.
- Responsible for creating promotional materials for the church and partnering organizations utilizing the Adobe Creative Suite.
